

## BE CONSUMER SMART

QUOTE : “ For thousands of homeowners Polybutylene plumbing has become a reoccurring nightmare”

*ED BRADLEY 60 MINUTES*

“The pipes are like ticking time bombs for many other homeowners — In Atlanta and across the country — who will one day face their own leaks because of Polybutylene...” *Gene Tharp Atlanta Journal Constitution*

## ATTENTION ! MANUFACTURED HOME HOMEOWNERS INFORMATION YOU SHOULD KNOW ABOUT

**POLYBUTYLENE PIPE (PB)**

**DEFECTIVE PIPE  
USED IN  
MANUFACTURED  
HOMES  
FROM  
1976 THRU 1996**

**CONSUMER INFORMATION INSIDE**

## CONSUMER INFORMATION

### THE PIPE ON THE FRONT PAGE IS DEFECTIVE !

It's Product Name is POLYBUTYLENE ( PB )

IDENTIFIED AS...Thin, Gray or Black Plastic Pipe with Plastic, Brass or Copper Insert Fittings. Fastened by Metal Crimp Rings, Both Aluminum or Copper. Visible Under sinks, Toilets and Water Heater Areas.

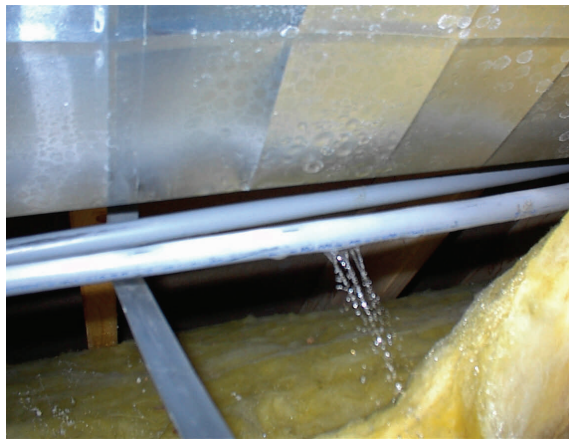

All Mobile Homes & Park Models Manufactured From 1976 Thru 1996, Used This as Their Main Water Supply System EXCLUSIVELY!

### IS THIS DEFECTIVE PIPE STILL IN YOUR HOME?

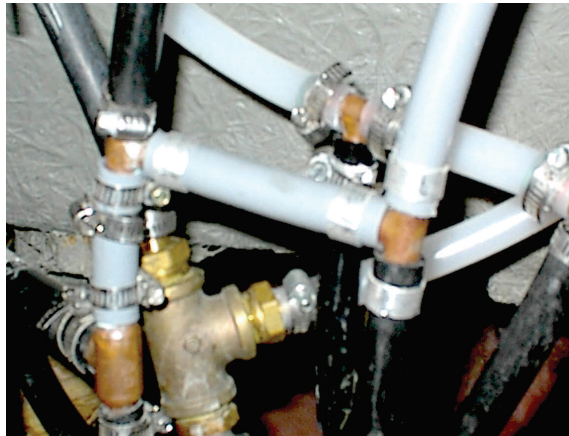

Do You Know For Sure ?

Perhaps You Have Moved Into a Home Unaware it Has Polybutylene Pipe.

WHY? Because Millions of Homeowners Nation Wide and In Arizona Have Lived for Years With The Problems Associated with this Plumbing System. The Pipes Develop Pin Hole Leaks or Splits. Crimp Rings or Fittings- Break, Crack or Weaken, Most Times UNNOTICED to The Homeowner. These Small Leaks (mist) are often Unnoticed Until Water Shows Up or Floors Warp. Major Breaks (under high pressure) Can Occur When Your Sleeping, or Away From Home, Causing Damage to Floors, Walls, Furniture, Vapor Barrier and Insulation .

LEAKS

MISC REPAIRS

DAMAGES

## REASON FOR THIS INFORMATION

For Years I Have heard Homeowners Express, *"Why Didn't Anyone Tell Me About This Pipe Problem, There Needs to be Information On This Polybutylene"*

My Company Since 1994 Has Gone State Wide in Arizona, Repiping 1000's of Manufactured Homes Under the Class action Suit (CPRC) Which has now ended ( [www.pb.com](http://www.pb.com) )

THE PROBLEM IS REAL INFORMATION HAS BEEN OUT. Many Homeowners Have Had Their Homes Repiped by (CPRC or OUT OF POCKET) Due to the Endless Problems With This Pipe Remaining in Their Homes

### ALERT:

*From Mid 1980's Thru 1990's Homes Most Homes Never reached the Point of Leaking and a Chance to be Repiped Under the Class Action Suit. Time thought has past and the chances of leaks have increased !*
